DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 11/08/05 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of 6,739,733 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Amendment

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

3. Claims 1-23 are allowed.

4. The following is an examiner's statement of reasons for allowance: Subsequent the terminal disclaimer filed 11/08/05 and the amendment to claims 1,9 and 20 including the phrase "an exterior surface" to distinguish the instant invention over the cited prior art of record Villanilam , the above claims are now deemed allowable. Villanilam discloses a lens filled with flowable material that hardens after curing to encapsulate the inner components of a light device including the circuit board and LED's. Villanilam teaches the clear lens providing a sealing means for the flowable material and inner components. Villanilam does not teach the flowable material that hardens as an exterior surface of the lamp assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
